

TABLE OF CONTENTS

INTRODUCTION	VIII
CHAPTER ONE: CYCLES AND SEASONS	1
Key points to the understanding of astrological forecasting	2
CHAPTER TWO: TRANSITS	7
The Basics	7
Planetary cycles	10
Aspects and Orbs	12
Planetary Transits	16
Transits to the houses	29
Turning the Wheel	36
Solstice points	38
CHAPTER THREE: PROGRESSIONS	39
Types of progressions	40
Converse progressions	41
The Progressed Sun	42
The Progressed Lunation Cycle	45
Keys to interpreting the Progressed Lunation Cycle	50
Analysis of the Progressed Sun	53
The Progressed Moon	61
Progressed Moon through the signs	63
Progressed Moon aspects with planets	66
Progressed Angles and House Cusps	83
Other progressed planets	84
Progression to midpoints	84
Progressed declinations	86
Retrograde planets by progression	87
Natal retrograde planets going direct by progression	89
Minor progressions	91
Tertiary progressions	95
Progression example	97
CHAPTER FOUR: SOLAR ARC DIRECTIONS	99
The Basics	99
Differentiation from Secondary progressions	100
Viewing Solar Arc directions	101

Solar Arc Sun directions to natal Sun	102
Solar Arc directed Moon	103
Planets in Solar Arc directions	105
Solar Arc directions in action	109
CHAPTER FIVE: RETURN CHARTS	113
Solar and Lunar return charts	114
Precessed vs. non-precessed	115
The 32 rules for interpreting any Return chart	116
Converse Solar returns	121
Location of Solar Return Sun	121
Return charts based on Solar Return	126
Solar Return House emphasis	126
Return chart Ascendants and natal House position	127
Solar Return Ascendants in natal	128
Rising signs in Solar Returns	131
Foreground planets in return charts	135
Progressing the Solar Return chart	144
Seven Planetary Periods of Solar Returns	145
Return charts using the Moon	145
Position of the Lunar Return Moon	148
Using asteroids in return charts	150
Other types of return charts	153
Return charts in action	155
CHAPTER SIX: ECLIPSES AND LUNATIONS	163
Solar/Lunar eclipse occurrences	164
The Phases of the Moon	164
Moon Phase Chart	169
New Moon positions in natal chart	170
Special lunations	174
The Saros Cycles	176
Interpreting eclipses	177
Timing of eclipses	179
Eclipse effects on planets and angles	179
House position for eclipses	183
CHAPTER SEVEN: OTHER PREDICTIVE METHODS	187
Diurnal charts	187
Huber Age Progression technique	195
Classical astrology techniques	196
Annual harmonic chart	198

CHAPTER EIGHT: PREDICTING WITH DEGREES	201
Noteworthy degrees	202
Symbol systems for astrological degrees	203
Specific degrees	204
Examples and analysis of the 29 th and 00 degrees	207
Sensitive points	217
CHAPTER NINE: GENERAL FORECASTING	219
Significators of relationships, career and other life milestones	219
Special meetings	221
Specific charts for relationships	225
Career forecasting	226
The Job Chart	228
Other areas	235
CHAPTER TEN: PUTTING IT TOGETHER	241
A method for analyzing a wide variety of predictive techniques ...	243
CHAPTER ELEVEN: IMPORTANT AGES	247
A listing of planetary events from birth to age 90	248
CHAPTER TWELVE: CONCLUSION	255
Chart Data	257
APPENDICES	
I. Modes and triplicities	259
II. Midpoints	260
III. Decanates and Dwadashamsas	262
IV. Parallels, contra-parallels, and Out-of-bound declinations ...	266
V. Solstice Points	268
VI. Saros Cycles and Eclipses	269
BIBLIOGRAPHY	282
